

4 ♦ REALIZE YOUR IDEAL

- 1 I, Archangel Michael, rejoice at the work that is undertaken in this school. In the world of Angels, there is celebration, there are songs and melodies, there is joy. For what is now being opened by your work is the world of the Mother, of the earth, and this has allowed the opening of the world of Angels up to the world of Archangels. And all these worlds are in union and are celebrating.¹
- 2 Just as your students² work to strengthen and feed the fire of my presence on earth, in the midst of you, exactly the same activity is being carried out in the world of Angels, with rejoicing, the triumph of the forces of the Light, of happiness, of the virtues in their expansion. I rejoice at all this celebration and this joy.
- 3 You hold in your hand the magical wand that incarnates the tradition of the Light. You hold the bottom of this wand in the world of men and I hold the top.
- 4 Everything is possible: carry out your work, project your wishes, realize your ideal, strengthen the school of God over all the earth, build His temple with stones of Light, for the path is open and fulfillment can be achieved.³
- 5 You have the support of the Angels and mine. Outside of the service of fire, take advantage of this exceptional moment to work on yourselves, to put new patterns into your lives, new seeds, to envelop your bodies with new colours.
- 6 This wand will not always be so powerfully activated. So, man, seize the opportunity. This is the only time I will say it to you until the cone of Light closes.

1 - The Essenes were gathered on a sacred mountain. Seven priests had just ended a retreat of several months. The prayers, meditations and intense silence of the celebration of the Archangel were generating sacred energies and forces in the subtle worlds.

2 - Archangel Michael is speaking to Olivier Manitarà.

3 - In the wake of this psalm, the Essenes built a small pyramid of stones. In a solemn atmosphere, they inserted sacred texts into it and consecrated the space in order to form an anchor for the Light and to receive its blessing from generation to generation.
